

Jira Cloud 워크플로(Workflow) 관리하기

이 문서는 Jira Cloud 워크플로(Workflow) 관리 가이드를 공유하기 위해 작성되었다.

- Jira Cloud 워크플로 활성화
- 워크플로 전환 추가
- 참조 링크

Jira Cloud 워크플로 활성화

워크플로는 프로젝트와 연결하기 전까지 비활성화 상태이다

The screenshot shows the Jira Cloud interface for managing workflows. On the left, the '워크플로' (Workflow) menu item is highlighted in the sidebar. The main content area displays a list of workflows, including 'CURVC Dev Workflow' and 'Jira Service Management IT Support Workflow Scheme'. On the right, the '설정' (Settings) menu is open, and the '이슈' (Issue) option is highlighted, indicating the workflow is currently inactive.

워크 플로 구성표메뉴에서 활성화,비활성 항목이 확인 가능하다

The screenshot shows the Jira Cloud interface for configuring workflows. On the left, the '워크플로 구성표' (Workflow Configuration) menu item is highlighted in the sidebar. The main content area displays a table of workflow configurations, including 'CURVC Dev Workflow Scheme' and 'Jira Service Management IT Support Workflow Scheme'. On the right, the '설정' (Settings) menu is open, and the '이슈' (Issue) option is highlighted, indicating the workflow is currently inactive.

워크플로 전환 추가

해당 워크플로에서 **편집**를 선택한다

The screenshot shows the Jira Workflows page. On the left, there's a sidebar with navigation options like '이슈', '이슈 유형', '이슈 유형 계층', etc. The main area is titled '워크플로' (Workflows). Below the title, there's a search bar and a filter for '페이지당 결과: 10'. A table lists various workflows. The first row is 'CS: Jira Service Management default workflow'. A red box highlights the '편집' (Edit) button in the '작업' (Actions) column for this workflow. Other workflows listed include 'CS: Service Request Fulfillment workflow for Jira Service Management', 'CURVC Dev Workflow', 'CURVC Simple Task workflow', 'FAC: Default ESM workflow for Jira Service Management', 'FAC: Jira Service Management default workflow', 'FAC: Service Request Fulfillment with Approvals workflow for Jira Service Management', 'FAC: Service Request Fulfillment workflow for Jira Service Management', 'FAC: Simple ESM workflow for Jira Service Management', and 'HR: Jira Service Management default workflow'.

전환 추가 버튼을 선택 후 아래 정보를 기입한다

- 보내는 상태
- 받는 상태
- 이름
- 설명
- 화면

The screenshot shows the Jira Workflows page with the '전환 추가' (Add Transition) dialog box open. The dialog box has tabs for '새 전환' (New Transition) and '전환 재사용' (Reuse Transition). It contains the following fields: '이 상태에서*' (From State) with a dropdown menu, '상태로*' (To State) with a dropdown menu, '이름*' (Name) with a text input field, '설명' (Description) with a text area, and '화면' (Screen) with a dropdown menu. At the bottom of the dialog box, there are buttons for '추가' (Add), '취소' (Cancel), and 'DONE'. The '전환 추가' button in the background is highlighted with a red box.
