Configure IHPP Kanban Board

General and filter

The Board filter determines which issues appear on the board. It can be based on one or more projects, or custom JQL depending on your needs.

General

Board name: **IHPP Kanban Board**

Administrators: **설진호 이사 (tom.seol)**

Filter

Saved Filter: **Filter for IHPP Kanban Board**
[Edit Filter Query](#)

Shares: **Project: Issue History Printer Project**
[Edit Filter Shares](#)

Filter Query: **project = IHPP AND issuetype in (standardIssueTypes(), subTaskIssueTypes()) ORDER BY 우선순위 ASC**

Ranking: **Using Rank**

Projects in board: **Issue History Printer Project**
[View permission](#)

Kanban board sub-filter: **fixVersion in unreleasedVersions() OR fixVersion is EMPTY**
 Further filtering of issues for unreleased work.
