The screenshot shows the CURVC Kanban board interface. The top navigation bar includes 'Dashboards', 'Projects', 'Issues', 'Boards', and 'BigPicture'. A 'Create' button is visible. The left sidebar shows 'Issue History Printer Project' and 'IHPP Kanban Board'. The main area displays a Kanban board with columns: '2 To Do', '0 In Progress', and '9 Done'. A modal dialog titled 'Name this board' is open, containing the following fields and options:

- Board name\***: Text input field containing '애자일 보드'.
- Saved filter\***: Dropdown menu showing 'AP 보드의 필터'.
- Shares**: Lock icon and text 'Project: ALM Portal Development Project'.
- Owner**: Text '설진호 이사'.
- Saved Filters**: Text explaining the selection process: 'Choose from a list of existing filters as a base for your new board. To create a new Saved Filter, save a search in the Issue Navigator.'

At the bottom of the dialog are three buttons: 'Back', 'Create board', and 'Cancel'. The background shows a list of issues on the right, including 'IHPP-10', 'IHPP-4', 'IHPP-5', and 'IHPP-6'.
