Wiki Home

Wiki Home은 별도의 페이지이고 아래와 같이 구성할 수 있다.

Space 생성

문서를 정리하기 위해 먼저 Space(Project)를 생성한다.

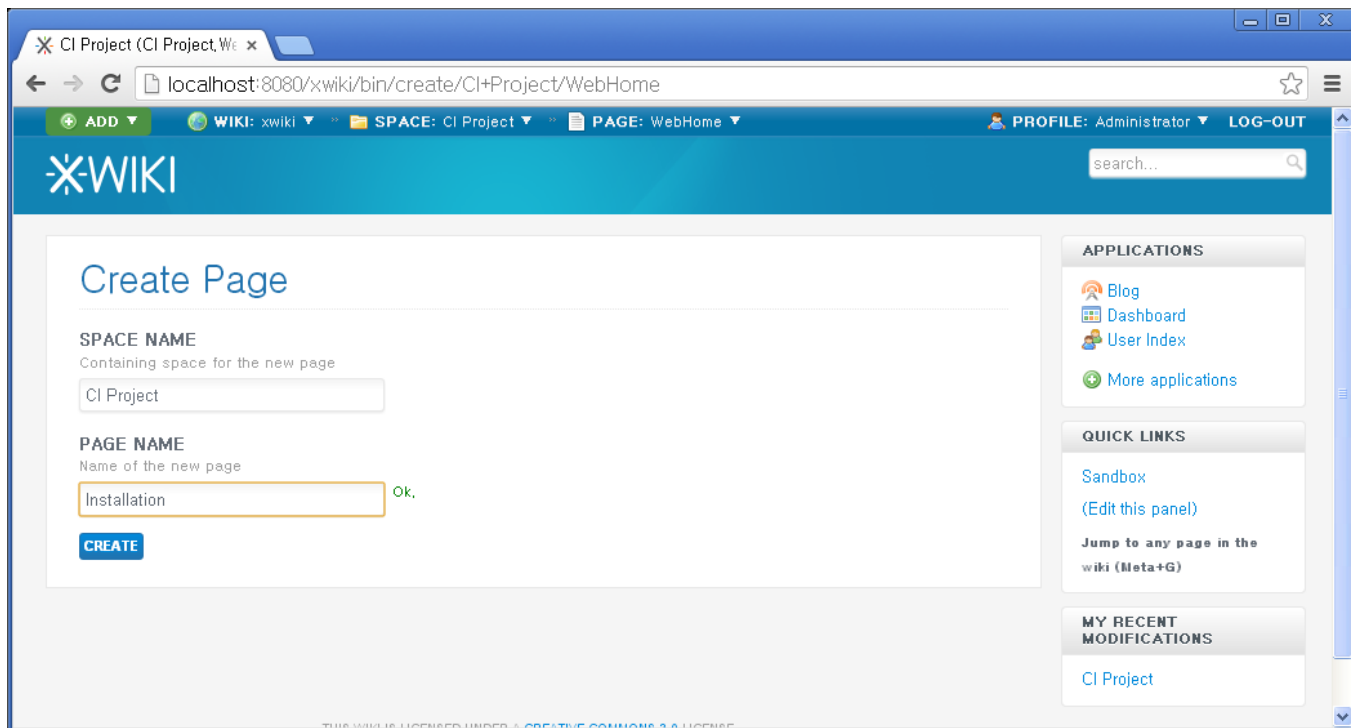

스페이스 대시보드

스페이스 대시보드는 페이지로 구성된다.

The screenshot shows a web browser window displaying a Wiki page titled "CI Project". The browser's address bar shows the URL "localhost:8080/xwiki/bin/view/CI+Project/WebHome". The Wiki page has a blue header with the "X-WIKI" logo and a search bar. Below the header, there are tabs for "EDIT", "EXPORT", and "MORE ACTIONS". The main content area is divided into two columns. The left column, titled "Documents in space CI Project", lists "Installation" and "CI Project", and includes a "Create a new page" link. The right column, titled "Activity Stream for space CI Project", shows a "Today" section with two entries: "Installation" (2 changes by one user, few seconds ago) and "CI Project" (created by Administrator, 4 minutes ago). Below the activity stream, there are tabs for "COMMENTS (0)", "ATTACHMENTS (0)", "HISTORY", and "INFORMATION". The "COMMENTS (0)" tab is selected, showing "No comments for this document" and an "Add comment" link. On the right side of the page, there are two sidebars: "APPLICATIONS" with links to "Blog", "Dashboard", "User Index", and "More applications"; and "QUICK LINKS" with a link to "Sandbox" and a note to "Jump to any page in the wiki (Meta+G)". Below these is a "MY RECENT MODIFICATIONS" section showing "Installation" and "CI Project". The page footer shows "Created by Administrator on 2013/10/11 11:07".
