Artifactory Requirements

Recommended Hardware

The following table provides hardware recommendations for a single server machine:

Number of developers	OS /JVM	Processor	Memory for JVM Heap	Storage
1 ~ 20	64 bit	4 cores	4GB	Fast disk with free space that is at least 3 times the total size of stored artifacts
20 ~ 100	64 bit	4 cores	8GB	Fast disk with free space that is at least 3 times the total size of stored artifacts
100 ~ 200	64 bit	8 cores (16 cores 권장)	12GB	Fast disk with free space that is at least 3 times the total size of stored artifacts
200 +	64 bit
